---

## TECHNICAL SKILLS

- **Advanced:** PostgreSQL, MSSQL, MySQL, Power BI, Tableau, Python
- **Experience with:** Pandas, Numpy, Scikit-Learn, Jupyter Notebooks, Data Visualization (Matplotlib, Seaborn).

## EXPERIENCE

### Data Analyst

12/2015 – 07/2019

Auchi Polytechnic, Nigeria

- Analyzed student data using SQL in order to gauge student progress and report accountability metrics to the Board of Trustees and Ministry of Education.
- Designed, implemented and maintained reports, visualizations, KPIs and dashboards that met user needs, aligned strategic and operational goals and supported decision making at all levels, including senior management team and Board of Trustees.
- Taught colleagues how to generate and manage their own reports and performance dashboards.
- Wrote and published internal documentation for a large-scale Power BI project.
- Wrote and delivered lectures for students on topics like Introduction to the Internet, System Programming, Web Technology, Computer Applications, and Database Management.

### Data Analyst

01/2014 - 11/2015

Phoenix Integrated Services, Nigeria

- Used SQL and other appropriate tools to validate and analyze large datasets of operational and financial data.
- Responsible for designing, building, and maintaining the organization's CMD (configuration management database).
- Supported internal teams in implementing data management best practices that ultimately saved 7hrs/week of data cleaning.
- Extracted and merged data sets from multiple data sources, performed data cleansing, transformation, exploration, analysis and visualization with Microsoft BI technologies.

### Data Analyst

01/2009 - 12/2013

Sole Desire Limited, Nigeria

- Responsible for regularly presenting data-driven insights to cross-functional teams in the organization.
- Extracted data from various sources like SQL Server, Microsoft Excel and Text file from Client servers and supported day-to-day requests for data analysis and reports.
- Responded to data enquiries from various groups within the organization.
- Prepared equipment for employee use by ensuring proper installation of services, operating systems and software.

### College Instructor, Computer Science Department

10/2007 - 10/2008

Kogi State Polytechnic, Nigeria

- Taught data structures and algorithms, introduction to computer science and Structured Query Language (SQL).

## EDUCATION

### Master of Science, Computer Science

2019

Benson Idahosa University, Nigeria

*Thesis: A Hybrid Security System for Database Applications*

### Bachelor of Science, Computer Science

2007

Ambrose Alli University, Nigeria

*Thesis: Knowledge Discovery in Databases via Data mining*

### LinkedIn e-learning, Power BI Top Skills Certificate

2019

### LinkedIn e-learning, SQL Essential Training Certificate

2019

### WeCloud Data, Tableau Essentials Certificate

2020
